Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

As to independent claim 1, "Creating interpolation points between adjacent twos of the sequence of command points as shape-defining points, selecting one shape-defining point and shape-defining points in front and in the rear of the one shape-defining point from the shape-defining points created is said step(a), creating an approximate curve for the shape-defining points selected in said step(b), moving the one shape defining point towards the approximate curve created in said step (c) to determine a modified shape-defining point for the one shape-defining point, repeatedly executing said steps (b) to (d) for the other shape-defining points to obtain a sequence of modified shape-defining points, defining a curve passing the sequence of modified shape-defining points and perform interpolation on the curve defined in said step(f)", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

2. As to the cited references, they do not teach the systematic steps of independent claim 1. The prior art lacks the steps and also does not do the same steps in order.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
